

Upgrade Incentives for NextGen

SBAS-FMS Solutions for Excellent Performance

Equipping your aircraft for NextGen is more than the nearest mandate. At Universal Avionics, we believe it's about designing the best suite of cockpit avionics to match your operational needs, and bring real value to the aircraft. Whether you own the aircraft for just a few years or decades, we believe in a building-block approach to avionics equipage that allows you to employ NextGen technology today.

Universal Avionics SBAS-FMS is the first step in preparing for NextGen. Not only will it enable ADS-B Out, but also PBN and Data Comm, including CPDLC and CPDLC DCL. With the release of this upgrade incentive, it's the perfect time to invest in your aircraft. Enjoy 'Best Equipped, Best Serviced' today.

Incentive Details
